### OHIO'S SCHEDULES OF CONTROLLED SUBSTANCES

The following is a compilation of substances scheduled pursuant to Sections 3719.41 (07/01/76, 05/19/93, 07/21/94, 07/01/96, 05/17/00), 3719.43, and 3719.44 of the Ohio Revised Code (ORC). This compilation has been prepared by the Ohio State Board of Pharmacy to assist health professionals and law enforcement officers in determining:

- (1) whether or not a drug or drug product is a controlled substance;
- (2) which schedule a substance has been placed in;
- (3) whether or not the substance was placed in, added to, or transferred to a different schedule according to Section 3719.41, 3719.43, and/or 3719.44 of the Revised Code; and
- (4) the date that each substance was added to or transferred from one schedule to another.

Following each substance, in parenthesis or brackets, are the dates that the substance was placed in that schedule.

The date in parentheses ( ) indicates the date that a substance was placed in the schedule by the federal government (pursuant to Section 3719.43, ORC). A date PRIOR to July 1, 1976, the original enactment date of Section 3719.41, ORC, indicates the date that the substance was controlled under federal law ONLY (i.e.-Comprehensive Drug Abuse Prevention and Control Act of 1970; 21 U.S.C. 801-966).

The date in brackets [ ] indicates the date that the substance was added or transferred to the schedule by the Board pursuant to Section 3719.44, ORC.

Substances printed in **bolded type** were **added or transferred** to the schedule **by the federal government** (Section 3719.43, ORC) **AND/OR by the Board** (Section 3719.44, ORC) **after the last amendment by the Ohio Legislature** (05/17/00) to Section 3719.41 of the Ohio Revised Code.

Footnotes are used to provide additional information.

**NOTE:** In order to determine if a specific drug product has been “excepted” from control under the schedules, please refer to the *Controlled Substances Reference Table* in the Official Edition of the Drug Laws of Ohio publication.
