

## 2020 - Rules Update

The following rules have been adopted by the State of Ohio Board of Pharmacy in 2020. To view on new rules, click on the rule number in the first column.

To assist licensees in complying with the new rule chapters, the Board recently published inspection guides for each license type. The inspection guides align with internal guidance used by Board inspectors and allow licensee to conduct self-inspections to ensure compliance. Guides also include links to the new rule chapters, important definitions, and reminders of when a licensee is required to submit notification or additional information to the Board.

The guides are available on the [terminal distributor licensing page](#) and can also be accessed using the short links below:
