Personnel List - Limited Terminal Distributor Licenses

Updated 2/4/2025

Ohio laws and rules require entities holding a limited terminal distributor of dangerous drugs license (Category 2 or 3) to maintain a personnel list on-site of those individuals who are authorized to administer the dangerous drugs.

The following form may be used as a limited licensee's personnel list. Licensee's may create their own list (i.e., Excel spreadsheet) if it contains all the information on this form.
