

## OHIO STATE BOARD OF PHARMACY STATE BOARD NEWS QUIZ – FEBRUARY 2011

1. Out of the required 6.0 CEUs (60 hours) of continuing pharmacy education credit due every three years, at least \_\_\_\_\_ must be Board approved jurisprudence (per the list on the Board's website).
  - a) 4.5 CEUs
  - b) 20 hours
  - c) 0.3 CEUs
  - d) 0.1 CEUs
  - e) None of the above
2. On January 1, 2011, a new rule became effective mandating all prescriptions which are not refillable be assigned a new serial number upon authorization for additional dispensings by a prescriber.
  - a. True
  - b. False
3. As of January 1, 2011, a pharmacist may transfer a copy of a prescription:
  - a) as often as a patient requests as long as refills remain.
  - b) only once between pharmacies sharing an electronic real time, online database.
  - c) one time during the life of that prescription.
  - d) zero times regardless of refills remaining on original.
4. A prescription for a 30 day supply of a medication written and filled on December 1, 2010 with 3 refills was transferred to another pharmacy one time on December 29, 2010. This prescription may be transferred again to a non-related pharmacy:
  - a) zero times as no further transfers are allowed.
  - b) one more time during the life of the prescription.
  - c) two more times per the remaining refills.
  - d) as needed up to one year.
5. Rule 4729-5-05 states a pharmacist or pharmacy intern must report a name change within 60 days of the change accompanied by:
  - a) a notarized affidavit.
  - b) a certified copy of a court record.
  - c) a certified copy of a marriage certificate.
  - d) a written note from the pharmacist/pharmacy intern.
  - e) A, B and C are true.
6. Pharmacy technicians in Ohio are not required to be licensed, registered or certified.
  - a) True
  - b) False
7. Rule 4729-5-06 states a pharmacist or pharmacy intern has \_\_\_\_\_ days to notify the Board of Pharmacy of a new address and \_\_\_\_\_ days to notify the Board of Pharmacy of a new principle place of employment.
  - a) 15, 15
  - b) 30, 15
  - c) 30, 30
  - d) 30, 60
  - e) 60, 60
8. The ISMP has recommended that metric measurements (e.g. ml or mg) not be used and that "teaspoonful" or "grains" be used exclusively.
  - a. True
  - b. False
9. A pharmacist working for a chain who received a new TDDD number for the location in which that pharmacist principally works need not file a change of employment form with the Board of Pharmacy.
  - a. True
  - b. False
10. Drug poisoning deaths have recently eclipsed traffic accident deaths in Ohio per the Ohio Department of Health. Pharmacists are expected to help stem this tide by:
  - a) refusing to fill any CII medication for a patient they have not dispensed medication to in the past.
  - b) preferentially filling CIII medications as they have a much smaller abuse potential.
  - c) charging more for an out-of-town prescription.
  - d) agreeing to fill prescriptions for a distant pain clinic so that the physician knows where his patients are going for their medications.
  - e) filling any prescription based on a legitimate medical need for that prescription.
11. Both Ohio and Federal Laws, Rules, and Regulations place a corresponding responsibility on the pharmacist to make certain any prescription is written for a legitimate medical purpose and hold the pharmacist accountable for that judgment.
  - a) True
  - b) False

12. OARRS data accuracy is dependent on the care used when entering the data at the pharmacy. Common errors include:
- a wrong prescriber may be listed if the wrong DEA number is chosen due to a similar prescriber's name.
  - entering a DOB one digit off as with DOB 7/12/1959 entered as 7/12/1969.
  - entering the date of dispensing instead of the patient's DOB.
  - entering a spouse's DOB instead of the patient's DOB.
  - all the above.
13. ISMP associates many medication errors with look-alike or sound-alike names. Confirmation bias is a type of selective thinking whereby the individual selects what is familiar or expected. Some methods to avoid these errors are:
- review updated lists of look-alike/sound-alike names.
  - use computer programs to prominently display name similarities.
  - physically separate drugs with commonly confused names, labels or packaging.
  - bar coding for product verification.
  - all the above.
14. The FDA has recently warned health care practitioners regarding the risk of \_\_\_\_\_ with doses of 80mg of simvastatin.
- gout
  - stroke
  - rash
  - muscle injury
  - meralgia paresthetica
15. The FDA approved influenza vaccine for the 2010-2011 season in the U.S. includes the 2009 H1N1 virus vaccine and is recommended for:
- All people aged six months and older.
  - Those over age 65.
  - Infants and children up to age 12 only.
  - Adults with concomitant disease states.
16. When an independent double check of a high-alert medication fill is performed by two pharmacists alone and apart from each other, information verified should include:
- correct drug.
  - correct dose and route of administration.
  - correct patient
  - drug indication appropriate for the diagnoses
  - all the above.
