## **Reinstatement of Lapsed or Expired Ohio Pharmacist License During COVID-19**

**Updated 5/5/2021**

Ohio [SB 310](#) (effective 12/29/2020), creates a process whereby a pharmacist whose license is expired or inactive, including due to retirement, may practice under a temporary license without having to apply to reinstate or restore the license. **The temporary pharmacist license granted under the act is only valid until May 1, 2021 and has expired.**

Retired or inactive pharmacists may still administer COVID-19 vaccines under the Federal Prep Act. For more information, please review this HHS Fact Sheet:
